First name: Gregory

Last name: Cole

Organization:

Title:

Comments: Please don't effectively ban climbing on federal lands. The vast majority of climbers, especially ones doing trad climbing are trying to safely enjoy the beauty and thrill of nature. These climbs need a few bolts in order to ensure a higher level of safety for people, rather than them being completely on their own. Anchors or other small pieces of equipment are also needed to leave a climb or in an emergency. Please allow a reasonable amount of anchors on climbs.
