Title:

Comments: To Whom it may concern,

I am not in favor of the bolting ban. It would be a devastating blow to the sport of climbing. The bolts and fixed gear throughout our parks and forest service land are part of our climbing lexicon. To put a stop to maintaining these systems would be dangerous. I'm in favor of coming up with a sustainable plan between climbers and usfs and nps.

Sincerely

Whit Magro

Climber of 29 years
