Last name: Crampton
Organization:
Title:
Comments: Concerns: Bob Marshall, Scapegoat, and Great Bear Wildernesses.
- Proposal to renew existing outfitter permits needs to make public, which permits, where, and other information so that effective public comment can be made.
- Forest Service responsibility is to preserve and protect Wilderness.
- Recreation impacts must be acknowledged and addressed.
- With the many impacts outfitting has on the Wilderness, the Forest Service must not use a Categorical Exclusion to renew outfitter permits.
- Oversight, inspections and performance evaluations of all outfitters must be done.
