Title:
Comments: Please protect the wilderness character in the Bob Marshall Wilderness Complex. It is your responsibility to protect and preserve our wilderness, not promote any usage such as guiding or outfitting. The proposed Bob Marshall Wilderness Complex Outfitter & Guide Permit Reauthorization is not site-specific even though they were asked to submit such site-specific comments. We need at least another 45 days after info is published on the website for the public to review the information and make comments. Plus, since outfitting has many negative impacts on the Wilderness, the Forest Service cannot use a Categorical Exclusion to renew any of the outfitter permits. The public deserves an Environmental Assessment or Environmental Impact Statement to protect this Wilderness Complex
