Title:

Comments: I am passionate user of the US Forest Service Wilderness Lands. I have backpacked through Ansel Adams, Bob Marshall, Cloud Peak, and Dolly Sods wilderness areas. I have canoed through the Boundary Water Canoe Area. My most treasured memories are from these places.

I am also a rock climber. I believe protecting these wilderness areas is crucial. However, world class rock climbing can be found in USFS wilderness areas. Allowing for fixed anchors will allow for safer rock climbing and encourage more people to visit these beautiful places. I look forward to rock climbing in these areas in the future.
