Comments: the act of prohibiting bolts is an insult to the community of climbing and should not be tolerated.

People from all over the world from all walks of life are brought together from this it should not be limited anywhere. this defines many peoples lives and not only that it's so important to rock climbers lives they will climb these walls without the bolts or protection because you won't allow it causing more deaths that will be your fault, if you don't want to deal with more deaths on your hand then don't do this. if you don't believe me i've seen this happen before and known people who have died for this same reason. For the people i climb with and love you can't remove protection it is not hurting the environment or peoples views anymore then people walking off the trail. PLEASE STOP THIS IT IS INSANELY STUPID AND YOU WILL REGRET IT ??????????????????
