First name: Vijali

Last name: Hamilton

Organization: World Wheel Project

Title: Founding Director

Comments: Dear Ms /Mr.

I would suggest the importance of clearing out the dead trees and removing the old and new underbrush. This has proven to be healthy for the forests and minimizes the possibility of hot and large forest fires. This is what our Indigenous peoples did for centuries and the forests were very healthy when the pilgrims arrived.

Ancient wisdom for modern times.

Sincerely,

Vijali Hamilton
