Comments: Climbing in the National Parks, National Forests and Wilderness Areas of America has afforded me some of the most formative experiences of my life. These experiences have inspired me to be a steward to public lands and advocate of respectful and low impact use thereof. I fully believe that fixed anchors are and should continue to be an integral component of a sustainable and safe wilderness experience. Please allow your policy to protect the use, replacement and maintenance of fixed anchors in Wilderness areas, National Forests, National Parks and all public lands.

Thank you,

Toby Swimmer
