Comments: Hi there,

I am a constituent from Carbondale, Co. I believe this plan as proposed would be of great benefit to the people of this county, and the world we all live upon. Recognizing the importance of old growth and mature forests in a quantifiable way and ensuring they are managed for the long term health and resiliency of natural ecosystems is an important step in increasing our counties resilience in the face of natural and man made disasters. It will help guide decisions which benefit our communities near and far from the forests.

Thank you for considering these comments.
