First name: Marcia

Last name: Navajas

Organization:

Title:

Comments: Thank you for the opportunity to comment on the scoping process. Please consider including the following:

1. Protect old growth portions of the forests.
2. Prioritize restoration of diversity in trees and native vegetation in areas degraded by cattle, overuse, ATV and wildfires. Combat invasive vegetation.
3. Protect native species and their habitats, especially those species in decline.
4. Reduce wildfire potential by keeping large trees, improving native vegetation, thinning, etc.
5. Take into consideration climate change and its effects and use science to determine best practices in all forest activity.
