First name: Scott

Last name: Laxier

Organization:

Title:

Comments: The practice of public policy dictated through greed and deceit is unsustainable, unethical, and needs to end yesterday. All decisions, in a country that eschews accountability, should be seen through the prism of Sustainability. Let Indigenous Wisdom lead on such important issues. Lobbyists, corporate interests, and sterile, out-of-touch politicians perpetuate the reality of those in power reaping the benefits. Who will lead with Integrity?
