Comments: The Bob Marshall Wilderness Complex has a long history of outfitting and guiding, and many outfitters there have been great supporters of protecting these Wildernesses. But, outfitting and camps have impacts which are often glossed over or overlooked, including Wilderness trails so heavily used by pack animals that they more resemble roads than foot or horse trails, and outfitter campsites in Wilderness that are allowed to have structures like tent frames, corrals, and hitching posts. All of these outfitter impacts are exacerbated by the extraordinarily large people and pack stock party sizes allowed in the Wildernesses.

Without telling the public what Sixty-two outfitters impact and proposals are how can the public judge and comment on this proposal? Seriously Sixty-two dirrerent sets of outfitters? To me, that's way too many.
