Title:

Comments: To whom it may concern, which is everyone,

My name is Casey Salas I am a McCall native, like most who were raised and made a conscious decision to stay here I love the outdoors. One of my earliest memories is of granite mountain, my dad used to take me there as a kid on the back of his snowmobile. It's the first time I understood the expression "heaven on earth". Now as an adult I crave that view, the snowy peaks are euphoric. To take away a view as beautiful as the one you get from being on top of granite in the winter time would be a tragedy. I 100 percent oppose this project.
