Title:

Comments: I am a resident of the Puget Lowlands in the state of Washington. I deeply appreciate the forests of this region, both its "working forests" and the more mature, biologically richer, older forests that surround us here.

I am a land owner, a tree farmer, and an active member of the Washington Farm Forest Association. I believe that it is vitally important to preserve the remaining old growth forests in our nation, and to nurture the more mature portions of our public lands so that they and our people may continue to prosper.
