Comments: I do NOT support any kind of expansion to the Nordic Skiing area. I do support expansion of the parking lots as the current Gordan Titus parking area is so restricted in size.

I have have been Driving to McCall to snowmobile and now Snowbike for 20 plus years.

There needs to be a financial assessment of what motorized use brings to this area. I do not see hundreds of skiers a day paying big money to snow cat ski.

I do however see parking lots full of motorized use that bring money to the McCall area.

Why is the Forest Service accommodating the few with this proposed closure in an area that is so popular.
