Comments: It is vital to protect our natural resources. For the animals, for recreation, for the humans, for our health and wellbeing. Drilling has, time and time again, demonstrated ill effects for the water, the air, the wildlife, the peace & quiet. In our world today we need to protect the peace and sanctity of the natural world around us for without it, we have nothing. I oppose this project for myself, for my family, for my dogs, for all my neighbors, for Coloradans, for all Americans. We own these lands; not those few individuals who benefit financially. Our voices should mean more than their interests. It is our land, our forests, our mountains, our clean air & water. Do not drill!
