Title:
Comments: Obviously this isn't the last thing they will try to take from the motorized community. It never is. They pinky swear it's just one thing and they just keep taking and taking. If they want their own snow they should just go deeper to black tip or Hazard. On top of it they will be using up parking in snowmobile parking lot to go access no snowmobile terrain. If they want to be excluded then don't use our parking.
