Title:
Comments: Please do not close any land for snowmobile use. Our usage currently is being taken Away and not allowing many people, multi users to access areas. This proposed restriction would be a disservice to so many people who come to recreate. We are already busting at the seams in the upper and lower parking lots. Please be fair and considerate in allowing all users to enjoy our beautiful lands. It should be for use by all users.
Please do not further take land from our users.
Thank you for your time in this matter.
Please again I ask you not close the proposed area around granite.
