Comments: I Support Access and Active Management in the Northwest Forest Plan

Dear Northwest Forest Plan,

I enjoy accessing and recreation in our national forests. I am a avid outdoorsman and I enjoy being out there with nature. Please don't cut off roads and force everyone in one area. This is not the answer. We have a very large area and we need to keep it all open. We need to open roads that have been closed we do it need to open 10 miles one place and close 10 miles somewhere else. I know this is how you have been doing it. Please open the public land to the public.

With wild fires as a concern the Roads act as a natural fire barrier and should be protected through this plan.

Sincerely,

Scott Kelly

15001 SW Maverick Rd Terrebonne, OR 97760-7642
