Comments: The Bob Marshall - rightly named after a very great man - is one of the gems of Wilderness in the lower 48. Unfortunately, the lack of site-specific information in the Bob Marshall Wilderness Complex Outfitter and Guide Permit Reauthorization makes site-specific comments difficult if not impossible. Accordingly, the Forest Service must make the following information available for public review on its website and must also extend the public comment period for another 45 days after information is published on the website:

- permitted service days versus actual use for each permit
- annual inspections, performance evaluations, or public complaints related to each campsite or operator
- any NEPA documents and related decisions dealing with outfitting service levels or allocation in the Bob Marshall Wilderness Complex
- the Bob Marshall Wilderness Complex Character Narrative
- 2017 needs assessment and extent necessary documentation
- Campsite Management Plans for each outfitter camp

I agree with those calling on the Forest Service to provide an Environmental Assessment or Environmental Impact Statement, with accompanying public input.
