First name: fred

Last name: bailey

Organization: Montana Snowmobile Assoc

Title: President

Comments: This is welcome news. Do to the excessive lawsuits and the failures to allow the federal land management agency, (Forest Service) to manage these lands, using their expertise and experience to assure a well balanced, healthy forest, our forests are in terrible condition. We highly support using controlled fires for managed fires rather than the highly destructive large forest fires that will surely happen if left unmanaged, especially following an unprecedented dry winter as we are now experiencing right now.
