Comments: Dear USFS,

I have hired outfitters in California before, but the Bob Marshall Wilderness Complex Outfitter and Guide Permit Reauthorization lacks site-specific information, despite requesting site-specific comments. Accordingly, the Forest Service must make the following information available for public review on its website and must also extend the public comment period for another 45 days after information is published on the website:

What are the permitted service days versus actual use for each permit?

Results of annual inspections, performance evaluations, or investigations into public complaints related to each campsite or operator

We need to see NEPA documents and related decisions dealing with outfitting service levels or allocation in the Bob Marshall Wilderness Complex

And, what are the campsite Management Plans for each outfitter camp.

Thank you,

Matt
