First name: Victor

Last name: Major

Organization:

Title:

Comments: Magic Meadows Trail - This reroute should be abandoned and replaced with a handbuilt singletrack trail. Not a doublewide highway.

MV Connector - This should be hand built singletrack trail that is downhill MTB only. Boomerang is suitable for uphill traffic. And commuters only commute downhill from MV. Uphill commuters take the gondola.

South Side perimeter trail - would be cool if was open to bikes.

Sunshine Mesa Trail - machine grading should be limited to motorized portion of the trail (wilson mesa trail).

Morningstar and Lizard Head should remain mostly as is with some hand built sustainability improvements and no motorized (including e-bike access)
