Title:

Comments: I am in full support of this plan! I've been saying for years that Telluride has so much untapped potential for a diverse trail system. As a resident of mountain village I think a trail that connect to the valley floor is a phenomenal idea. Being able to ride from my door to the town of Telluride for a summer apres, without touching roads would be incredible. Creating a climbing trail for T35 is the best idea I've ever heard of. I absolutely adore that trail and wish I could turn around and ride it again and again. The galloping goose is a phenomenal climbing trail so having more options to go down hill in illum would be so important and enriching to the mountain bike community.

I work at a bike shop in mountain village as a mechanic and having more free recreation options for the telluride community and for our customers would expand the sport and diversify the mountain bike community. More trails! I was exstastic to see this plan and when it hopefully passes I'll be the first to sign up to volunteer for trail work, as will a lot of community members. This will further strengthen the little mountain bike fandom we have here in Telluride! Yeehaw!
