Comments: I think this trail proposal is an excellent idea. These would open up awesome new opportunities for longer hikes and bike rides, while keeping people off busy roads. A lot of our trails are great, but pop you out on main roads with no shoulder for bikers and it poses a risk for drivers and riders alike. The MV to Valley Floor proposed trail will open up a much quicker option to get from MV to Telluride without having to take the difficult Boomerang trail or ending up on the road by Lawson. I love the idea of the Sunshine uphill so you can bike T35 without needing a lot of time to get there.
