Comments: I support the proposed ANILCA Cabin policy revision.

Having been fortunate enough to be an invited guest of a Special Permit Holder for a cabin on Swan Island in Seymour Canal on Admiralty Island for many years, I appreciate how special and unique these cabins are. The cabin is used frequently between spring through mid-December and the permit holder, his family and friends, myself included, have participated in traditional and customary uses of this cabin, namely recreating, hunting and fishing for decades and I hope this tradition will be allowed to continue. My wife and I also Kayak/tent camp around Seymour Canal, and there have been times when the cabin was a welcome alternate safe place to stay when too many bears roamed the beaches.

Thank you for this opportunity to provide input.
