Comments: Hello.

I am writing in support of the Telluride Mountain Club's trail proposal. I think this plan presents a number of good trails that are well integrated with the existing system. As outdoor recreation expands in the region, these new trails will help to spread out the impact and keep the trails we have from getting overloaded. It will also expand the opportunity for new loops and routes. I have always found the TMtC to be reasonable in their goals and proactive about incremental achievements to better and expand the outdoor recreation opportunities in and around Telluride. I think we're lucky to have such a motivated and professional group, and I'll hope you'll consider approving this proposal so they can get to work building these new trails.

Thanks,

Travis
