Comments: Traffic and parking is a concern for the Trout Lake community. Recent years have seen an incredible increase in traffic on the county road. As to the proposed Sheep Mt. Traverse I suggest you use the funds to build a trail from the Lizardhead Pass sheep corral to the East Fork Trailhead. A user could then connect with the East Fork Trails, Cross Mt. Trail, Groundhog Stock Drive, and eventually return to the Lizardhead Pass parking area via the old road.

There is little parking, no restroom nor trash collection at the Trestle. At the pass, there is ample parking, a restroom and trash collection. These suggestions would help mitigate the traffic through the Trout Lake PUD .
