Title:

Comments: Hello,

It's time to phase out these eyesores that need to be permanently shutdown-  
AS Intended!

These structures are not in place to suve the public nor nature and yet are situated on public land.

Without question it's time for all of these structures to be replaced by nature.

You know, the intent of a natural preserve.

Thanks for not trying to hand off another gift to the wealthy...

Sincerely,

John Lampson
