Comments: I've just learned that when UNAUTHORIZED cabins were built on US property, the original "owners" were (somehow) GRANTED nontransferable permission to continue using those cabins for the lifetime of the original "owners." Now the Forest Service is considering granting actual ownership AND rights to transfer ownership to others to those original "owners." This is CRIMINAL! Where does the Forest Service get the power to GIVE AWAY public property? The land belongs to "we the people" and cannot be given away by a government agency without consent of "we the people."
