Last name: Amsden

Organization:

Title:

Comments: Please stick to the terms as directed by ANILCA by which special use permits would NOT be extended past the deaths of the last surviving immediate family members of original claimants.

These permits MUST terminate and NEVER be transferable, and NEVER AGAIN be reissued even to successive generations of the original squatters on our public lands.

I reiterate, please do NOT extend the life of the use of unauthorized cabins on wilderness lands. Let the lands be absorbed into the wilderness as intended by the 1980 Act and stop the continued use and transit of people with all the pollution, garbage and other impact on the health of the plants and animals struggling to address climate change.
