First name: Shondeya

Last name: Betari

Organization:

Title:

Comments: I urge you to honor the original agreement regarding these privately owned cabins. This change being proposed is putting the emphasis on allowing individuals to trump the greater public's right to enjoy the wilderness as true wilderness. It is not wilderness when the few get to have special privileges because the rules are changed and dishonor the original intent of these limited permits to expire upon the last living relative. Please consider the greater good here!
