Comments: To the Forest Service:

I strongly object to the change allowing the leases on ANILCA cabins to be renewed beyond the initial agreement that renewal ends when the last owner dies. That rule was a compromise that balanced the rights of leaseholders with the need to protect wilderness areas. Changing the rule as proposed disrupts that balance and puts wilderness areas at risk from continued Human use.

I urge you to resist pressure from current leaseholders and retain the current rules regarding the limits of leaseholder renewals on ANILCA cabins.

Thank you.
