Comments: Dear Sir or Madam,

The ANCILA cabins, in reference to the FSH 2709.11-2021-01 regulations, should not be permitted to remain in perpetuity by changing these regulations to allow renewal ad infinitum. "Traditional and customary" sounds benign, but is an open door to human occupation when in fact the cabins were never meant to be permanent, never meant to be deeded by eminent domain and are, in fact, on public land that is meant to be wilderness. I do not think wilderness means "free lodging in my random great uncles cousin's wife's cabin" and I oppose changing the regulations.
