Comments: I can't believe that these idiotic Republiarch 'Representatives' want to make these illegal cabins permanent. I seriously doubt that whoever uses them take care to ensure that they are kept clean and don't adversely affect the environment. It is more likely that they don't keep their trash on site and take no effort to mitigate their impact on the environment. The fact that they must use powered vehicles to reach these cabins just adds to the damage they do to our climate. For once in your miserable reign do what is best for ALL Americans not just the privileged few.
