First name: Nancy

Last name: Caponi

Organization:

Title:

Comments: We need to protect all remaining Wilderness areas to keep them truly wild. Cabins don't belong in designated Wilderness, and should be phased out for the benefit of the public. The U.S. Forest Service must leave its policy unchanged and phase out ANILCA cabins, as was the original intent. These cabins were never meant to persist in Wilderness, and to change this policy would undermine ANILCA and the Wilderness Act.

Thank you.
