Title:

Comments: I learned that the Forest Service has proposed removing restrictions from permits for cabins that were to be phased out, i.e., the number of times a permit for an ANILCA cabin may be reissued or who may be listed on that permit. For Wilderness, these changes could mean generations upon generations of a persisting structure. Wilderness is as its name says, meant to be wild. That means no off road vehicles, no roads, no structures. Alaska contains some of our last truly wild places and should stay that way as the rest of the world is over used and over polluted.
