Comments: For the area around Heart Lake, I would like to maintain bike access in some of this area to allow for larger backcountry loops and the possibilities for bike packing routes through sections of the great burn.

I oppose the current action without a non-motorized travel corridor established on trails surrounding Heart Lake. I otherwise support the action to achieve large landscape conservation goals via the Great Burn Recommended Wilderness.

Over all I am looking to maintain bike access to remote areas of trail that allow for deeper forest access of larger loops or point to point adventures by bike.
