Comments: To whom it may concern,

I've recently had a chance to review the Lolo National Forrest Land Management Plan and would like to express my comments on some of the proposed changes.

Heart Lake Loop, near Superior

I strongly oppose the recommended action for the tails around Heart Lake to become Recommended Wilderness per the 1986 proposal due to permanent loss of access, unless a non-motorized travel corridor is established as was done for the adjacent Stateline Trail managed by the Nez Perce-Clearwater National Forest.

Regarding the Lolo Creek Geographic Area, I support the recommendations to extend the Wilderness limits.

Regarding the Cube Iron Roadless Complex, I strongly support the recommendation for a Backcountry designation

Thank you for your consideration.
