Angeles National Forest

701 North Santa Anita Avenue

Arcadia, CA 91006

Attn: Piru Creek CRMP

Dear Supervisor Torres:

Thank you for determining in the Piru Creek Comprehensive River Management Plan that the designated segment of Piru Creek possesses outstanding scenery, fish, and geology values. However, I urge you to include the creek's rare and unique recreational opportunities as a specific outstandingly remarkable value protected in the Plan.

Piru Creek between Pyramid Dam and Piru Reservoir provides a rare opportunity for class III-IV whitewater kayaking in a truly wild setting, all just an hour drive from Los Angeles.

In addition, the trackless Wild segment of Piru Creek offers a rare but easily accessible canyoneering experience, while Frenchman's Flat upstream is a popular family recreation destination for local communities of color to seek respite from the summer heat. A short segment of the creek is also one of only two catch and release trout streams in southern California and is popular with anglers.

I urge you to recognize Piru Creek's outstanding recreational value. I support the proposed and potential future management actions in the draft CRMP and urge the U.S. Forest Service to complete its visitor use capacity analysis as soon as possible.

Sincerely,

Jim Burns
