Comments: Thank you for determining in the Piru Creek Comprehensive River Management Plan that the designated segment of Piru Creek possesses outstanding scenery, fish, and geology values. However, I urge you to include the creek's rare and unique recreational opportunities as a specific outstandingly remarkable value protected in the Plan.

Piru Creek between Pyramid Dam and Piru Reservoir provides a rare opportunity for class III-IV whitewater kayaking in a truly wild setting, all just an hour drive from Los Angeles.

In addition, the trackless Wild segment of Piru Creek offers a rare but easily accessible canyoneering experience, while Frenchman's Flat upstream is a popular family recreation destination for local communities of color to seek respite from the summer heat. A short segment of the creek is also one of only two catch and release trout streams in southern California and is popular with anglers.

I urge you to recognize Piru Creek's outstanding recreational value. I support the proposed and potential future management actions in the draft CRMP and urge the U.S. Forest Service to complete its visitor use capacity analysis as soon as possible.

When I lived in Southern California many years ago, I often visited this area. I still remember it fondly. Please do everything you can to protect it. Thank you for considering my views.
