Comments: Hello!

Piru Creek is a wonderful and beautiful resource, located about an hour from Los Angeles it is within reach of millions of park users.

It is excellent that the Forest Service has, finally, recognized the scenic, fish and geologic values it holds.

But it is imperative the Forest Service goes a bit further and also recognizes the recreational value of the creek.

It provides a rare opportunity for class III-IV whitewater kayaking, as well as a rare canyoneering experience.

And no doubt dozens and dozens more!

So please, you must include Piru Creek's amazing recreational opportunities in the draft CRMP.

And it is tough out here, please complete the visitor use capacity analysis as soon as possible!

Thank you very much!
