Title:

Comments: As a young man I used to live at the edge of the Cabinet Mountains Wilderness area. Having that resource available to the public for hiking, fishing, exploring, camping etc. is what the state of Montana should stand for. We must maintain wild areas as much as we are able to. The Cube Iron/Cataract area represents a fast disappearing opportunity for wilderness preservation. Please understand the significance of your responsibility for the generations that follow us. Thank you.
