Comments: The AZT is a unique asset of the citizens of Arizona. Kudos to the Forest Service for drafting a plan to preserve, protect, and enhance this gem. I am a mountain biker, and my goal (62 years old, BTW) is to ride every foot of it. I have completed almost 200 miles over the last two years. I am awestruck when I round a corner and see another breathtaking view. The trail is nonpareil across the US. I wholeheartedly support efforts to expand (the corridor) and protect it.

I thank the Forest Service for the opportunity to comment.
