Comments: As an avid trail runner, mountain biker and overall outdoor enthusiast, I would love to see the addition of new trails, and connector trails in the Telluride area. As visitor numbers increase dramatically in the summer, having a wider variety of trails to access would be incredible. To be able to space out visitors and have less congestion on the already popular trails in town, would create more balance for all who love our trails. Thank you for all the hard work you do in setting up these proposals and maintaining our lovely trails system!
