Title: Cultural Resources Compliance Manager

Comments: AZ SHPO comments on the Comprehensive Plan:

- Page 82, Management Practices- This section goes back and forth with terms like cultural resources archaeological resources, historic properties. By definition (36 CFR Part 800) Historic Properties are resources that have been evaluated for National Register of Historic Places eligibility and determined eligible. Change historic properties to cultural and heritage resources. #3 - change archaeological resources to Heritage resources. Re #1 and #5 - pick one - cultural or archaeological inventory. Be consistent. Go global check and update.

AZ SHPO comments on the Draft Cultural Resources Report:

-Page 2 - it reads as though Indian Tribes will be conducting the survey. End paragraph after the word "use"

-Page 3 - Change "prehistoric sites" to "ancestral" sites

-Table 1 - Sites previously evaluated for the National Register . How does this differ from Listed and Eligible sites?

-Page 7/General - will there be a Programmatic Agreement to address maintenance activities that have the potential to adversely affect historic properties?

-Figures: map keys should be figure specific. Remove from key what is not relevant to specific figure

General - We would like to see greater emphasis on tribal participation in the identification and management of heritage resources and trail interpretation.
