Comments: Having lived in MT my entire life, Missoula specifically for 15 years, I think the RNRA is currently serving it's intended purpose perfectly. It would be a mistake to increase development for recreation in the RNRA and would have detrimental effects on the natural beauty of the area (which is the main draw). This proposal would act as a door opening to further increase development down the road as well, inching closer to a paved paradise. Please listen to the voices of local recreators and do not change the RNRA.
