Comments: I am unable to access (download) the plan documents, is it possible to get them mailed to my address? Travelling to the forest service office is arduous for me due to where I live. That said, without being able to review the documents and thus understand the contents, I don't want to miss an opportunity to express my desire for change. I would like to see Tower Road (FS road 7759) added to the seasonal closures for wheeled vehicles (Dec 1 - May 1). When people drive this road in the winter time it damages the snowmobile route, and makes my own access to my home extremely difficult. I'll end this here, just in case this is the wrong forum for this. Thank you!
