Comments: I have been backcountry skiing for over a decade. I learned at Lolo Pass and have since skied nearly all areas within a 2 hour drive of Missoula. I support multiple use by motorized and non-motorized users; however, I believe that strategic restrictions on specific types of use can reduce conflict and lead to a better experience for all people who enjoy winter. My recommendations to reach this objective are as follows:

1) Please significantly reduce the excessive size of the motorized buffer along Morrell Mountain Lookout Road (FR 4365) to protect non-motorized access to this terrain near one of our very few backcountry yurts in this range.

2) I support the designation of a Semi-Primitive Non-Motorized setting for our favorite local spots at Lolo Pass, Hoodoo Pass, Saint Regis Basin, Wisherd Ridge, Marshall Mountain, and Morrel Mountain. These popular areas provide opportunities for accessible human-powered backcountry skiing/riding day trips on public lands.

3) Please restrict motorized access into the Crystal Amphitheater on Lolo Pass, which is heavily used by the backcountry ski and snowboard community. I oppose FS 16675 as a Semi-Primitive Motorized setting. Please consider it as a Semi-Primitive Non-Motorized setting to prevent snowmobile conflict and trespass into this beloved ski area.

4) Please restrict motorized access into Saint Regis Basin. I oppose FS 18591 as a Semi-Primitive Motorized setting. Please consider it as a Semi-Primitive Non-Motorized setting to lessen snowmobile conflict.
