Title:

Comments: I am a resident of Missoula, frequent trail user (hiking, mountain biking), and volunteer for local bike organizations (FreeCycles, MTB Missoula).

I strongly oppose the Heart Lake wilderness proposal as it will prevent mountain bikers from recreating in the area. As someone who has ridden this trail for the first time last summer, I found it to be a great escape into the wilderness at a location not too far from Missoula. Please continue allowing mountain bikers some form of access to this area.

I support the recommendations for the Lolo Creek Geographic Area and Cube Iron Roadless Complex. The bike trails surrounding these trails will still allow mountain bikers to recreate in the area.
